KONEO

The workbench is a large wooden table supported by metal legs. On the surface, there is a blue coiled air hose, a yellow and black nail gun, a blue sander, a yellow and black drill, and a bottle of Elmer's Wood Glue Max. A brown paper bag and some papers are also present. The built-in wooden tray is made of light-colored wood and contains a white power outlet, a package of wood glue, and some other small items. The background shows a cluttered workshop with various tools, materials, and a large black fan.
